

***12<sup>th</sup> international exhibition for materials handling, warehousing equipment and logistics CeMAT RUSSIA took place at Crocus Expo from September 20 to 22, 2022***

137 exhibitors from Russia, Turkey, China, Belorussia, India, Norway, Republic of Korea, USA and France presented their technologies and solutions for efficient warehouse logistics and supply chain management. 42 companies took part at CeMAT RUSSIA for the first time. The exhibition occupied two halls and outdoor space with a total area of more than 9,000 m<sup>2</sup>.

In three days, 6,475 professionals from 73 regions of Russia visited the exhibition.

CeMAT RUSSIA 2022 was attended by such companies as COMITAS, FIRST, Newest Technologies, Logitechnika, Ateuco, STELLMART, Photomechanics, AXELOT, Axenix, ZAUBERG, also large equipment manufacturers from China were widely represented at the site: JAC, Noblelift, Huazh, LiuGong, HELI and many more. The abundance of equipment on the stands became a hallmark of the exhibition in 2022, more than 100 forklift types were presented at the exhibition site alone.

Traditionally, exhibitors of CeMAT RUSSIA demonstrated new solutions in the field of warehouse automation, organization of work of a warehouse and intralogistics complex:

- Avtokar company presented models of forklift trucks from the standard and premium series, as well as Lonking warehouse equipment;
- AXELOT TECH demonstrated EP EQUIPMENT loading equipment, robotic technology for organizing the storage, placement, selection and assembly of ACR MOBILE SHUTTLE, installations for generating electric and thermal energy;
- At the COMITAS stand, five robotic solutions were presented, united by the management of Russian software, which guarantees uninterrupted operation;
- Ostrov Mashin company presented a full range of LiuGong warehouse equipment: forklifts, electric stackers, reach trucks, hydraulic carts and pallet carriers;
- The Russian developer AXENIX presented the In.Plan integrated planning platform, which combined the knowledge and experience of leading international platforms (BlueYonder (JDA), SAP APO, SAP IBP, Anaplan, O9, Relex, Kinaxis), experience in local development of high-load systems, a modern technology stack and wide functional coverage;
- A new international brand, SHANN, has unveiled a forklift that combines the best basic features of JAC warehouse equipment with the latest electric vehicle technology.

At the TRANSPACK special theme section, companies such as Gotek, one of the largest developers and manufacturers of corrugated packaging in Russia, Polica Prof, Sealed Air, Benoplast, NECO-LINE and others, displayed the latest solutions for transport packaging, packaging equipment and tools, automation of packaging processes.

A rich business program is a distinctive feature of each CeMAT RUSSIA exhibition. This year, the program included 22 events organized with the participation of reputable partners: the Coordination Council on Logistics (CCL), Logistika magazine, PIM Solutions, SCM Academy, Concept Logic, the Russian-Chinese Chamber for the Promotion of Trade in Machinery, Technology and Innovation products. Event program was supported by Inlocker, COMITAS, Digital Control Technologies (CKT), Reksoft, DCS companies.

The content platform hosted presentations of new products and solutions by exhibitors: COMITAS, Advance Energy, Infoscan, Solvo, FIRST, Ateuco, InStock Technologies, Inlocker, Intekey, Constructor Rus, Gotek Group.

- As part of the event program, the first international conference “Logistics of Foreign Markets. Russia - China. Interaction practices. Technologies, equipment, services” took place.

One of the outcomes of the conference was the signing of the agreement on strategic cooperation. On behalf of the Russian-Chinese Chamber, the agreement was signed by the Head of the Center for Strategic Development Pavel Ustyuzhaninov, on behalf of CeMAT RUSSIA - the General Director of the DM RUS company Nikolay Kamenetsky.

- On the first day of the exhibition, AXELOT held its own conference “Logistics 2022: tools, leader experience, solutions”.

- Sber participated at CeMAT RUSSIA for the first time. At the Gallery of Solutions, the company presented an updated robotic warehouse logistics automation system SberShuttle, which is now controlled by RMS software (Robotics Management System - Robot Control System), created by Sber Robotics Laboratory.

Over three days, 93 speakers shared their experience and expertise, including heads of logistics departments and supply chain management groups from the country's leading companies: X5, Magnit, Leroy Merlin, Ozon, Pyaterochka, SIBUR, MVideo, B1 (formerly Ernst & Young Russia), Detskiy Mir, FM Logistic, Landmark, Okey chain, OMK, Sberbank.

More than 1,500 professionals took part in the events of the business program, each of them, thanks to the variety of topics and formats, was able to get answers to their pressing questions.

Specifically for the exhibition, analytical studies were prepared by the most reputable companies in their industries: Knight Frank Russia, Data Insight, Coordination Council on Logistics.

“Planning for CeMAT RUSSIA this year has been extremely intense. But we were sure that in September we would present an exhibition to the attention of all those involved in the world of Russian logistics, a visit to which would become a key point for shaping the company's logistics development strategy. A lot of the latest products, developments, new companies - all these attracts specialists to the exhibition like a magnet, and as a result, their number has become a record for the entire history of CeMAT RUSSIA,” says Natalya Kalmykova, Show Director of CeMAT RUSSIA. “The loyalty of our customers is very important to us, and we will

make every effort to justify the trust in the CeMAT RUSSIA brand. We are waiting for everyone in 2023 at Crocus Expo from September 19 to 21".

The general partner of CeMAT RUSSIA is the first system integrator of the international level in the Russian market, the COMITAS company.

***The next CeMAT RUSSIA exhibition will be held on September 19-21, 2023, at the Crocus Expo IEC (Pavilion 1).***
