- Heads of warehouse departments
- Heads of packaging departments /co packing
- Heads of order picking and logistic department

QUOTES OF EXHIBITORS:

“ It is difficult to imagine logistics processes without packaging, especially transport packaging. It would seem, what are we doing at this exhibition, which is dedicated to logistics? But this is where we offer packaging that is optimally integrated into logistics processes and saves on logistics costs.

Konstantin Glushenkov, GOTEK company

“ We have previously participated in various exhibitions and we have something to compare with. We are engaged in solutions for transport packaging - we produce honeycomb cardboard, anti-slip sheets. Now, after the first experience of participating in CeMAT RUSSIA (TRANSPACK product group), I can say that this is definitely our exhibition! There has never been an audience more interested in our products in my experience

Ekaterina Korshunova, General Director, Polica Prof
