

CeMAT RUSSIA 2026: The Ultimate Event for Warehouse & Industrial Logistics

From 15 to 17 September 2026, Moscow's Crocus Expo will host the 16th international CeMAT RUSSIA exhibition – the key industry platform for equipment, machinery, automation and robotics solutions in warehouse and production logistics.

Exhibition 2026: Scale, Geography & Participants

This year, the exhibition will occupy three halls of Pavilion 1. More than 160 companies from Russia, Belarus, China, Kazakhstan, Germany, India, Turkey and South Korea will present their technologies. Over 10,000 logistics professionals are expected to visit.

The assortment covers everything that shapes modern logistics: racking systems, lifting and material handling equipment, automation and robotic solutions, IT platforms, transport packaging, spare parts, components, engineering systems, lighting, and industrial flooring solutions.

Interest from foreign exhibitors remains strong, especially from China: in 2026, 38 Chinese companies will showcase their developments, including Kengic, Smart Loop, X-Gen, Yaoli, Damon, Xilin and many others. 50 tons of exhibits have already been delivered to Russia – clear evidence of high demand for Chinese equipment and manufacturers' readiness to strengthen their positions in the Russian market.

Among Russian participants are both long-standing industry leaders and 44 first-time exhibitors, including: Techno Group, AVIHIMSA, TH Quartz, Sistema (Mekon), SKALA Group (SKLADOS), MERCURY SOLUTIONS (Kazakhstan), RAZEC PRO (PROMSPETSERVIS), WowNet and others.

Key Automation Clusters

The exhibition traditionally brings together companies across all major automation segments:

- Automated storage systems: Micron, Stelkon, Constructor Rus.
- Conveyors and sorters: Photomechanics, Fructonad Group.
- Mobile robots: Ronavi Robotics, Meferi, Smart Servis (UNMSERV), Tersus.
- Integrated robotic systems: COMITAS, Newest Technology, Yandex Robotics.
- Machine vision and sensors: Dephan, Sensoren Electro.
- Identification and data capture: Weilandt Elektronik, Atol, Mertech, Saotron, POScenter, Infoscan.

Manufacturers and integrators from other segments are also represented.

At the stands of SANY, TD Vertical Company, SHANN, ASIA MH, RackFork, QSLift, Trakresurs-Region, LGIV and others, visitors will be able to compare technical specifications of lifting and handling equipment from different brands.

Packaging solutions and equipment will be presented by Bristol Group, I-Plast, BumAlternativa, Tara.ru and others.

Business Programm: 34 Events, Various Formats & Key Partners

Special attention in 2026 is given to the exhibition's business program. It will include 34 events of different formats and scales: trend sessions, expert discussions, conferences and interactive formats. More than 40 real-project case studies from end-user companies are scheduled within the case sessions. The Solution Gallery will host 6 presentations of the best products on display.

Business program partners includes: National Association of Manufacturers of Current Sources «RUSBAT», AVITO Spetstekhnika, NADDiPS, Council of Supply Chain Professionals, Mertechn, Stelkon, Comitas, Ati.su, EME.

Expert sessions within the business program will be run by Yandex Robotics, Photomechanics, SOLVO, InStock Technologies, SITEC, IT Vectura, and Comitas.

WIN RUSSIA 2026: The Manufacturing Leaders' Conference

One of the key events of the business program will be the third industry conference WIN RUSSIA – a forum for manufacturing executives engaged in modernization and business transformation. The agenda includes 8 expert sessions, each delivering practical tools and actionable solutions.

Participants invited include representatives of the Russian Ministry of Industry and Trade (Minpromtorg), the Ministry of Investment, Industry and Science of Moscow Region, the RF Chamber of Commerce and Industry, as well as companies such as MTS, Uvelka Petfood, Semargl, Robotics Corporation, ArnestYuniRus, Norilsk Nickel, Stellar Group, Ateuco, AtomIntelMash (Rosatom) and others.

WIN RUSSIA partners: National Association of Robotics Market Participants, Robotics Consortium, RUSSOFT, and the Manufacturers' Commonwealth TSEKH.

Minpromtorg Award – Season Two

CeMAT RUSSIA 2026 is held under the official patronage of the Ministry of Industry and Trade of the Russian Federation. For the second time, CeMAT RUSSIA will host the Industry Award for Warehouse Logistics Automation & Robotization, established by Minpromtorg together with the Centre for Industrial Robotics Development at Innopolis University.

In 2025, more than 20 applications from various regions were submitted. The winners were COMITAS (Best Integrator), Semargl (Best Industrial Solution), Shcherbinsky Elevator Plant (Best Retail & E-commerce Solution), and Ronavi Robotics (Best Manufacturer of Industrial Transport Robots).

Applications for 2026 are now being accepted. The award ceremony will take place on 17 September at the Grand Arena.

Robobattle & Youth Day

On the final day, CeMAT RUSSIA will hold its second Robobattle – a sports competition among robots. The organizer is the STARKIT-MIPT team (Phystech), winners of the FIRA RoboWorld Cup international robot football tournament.

For the first time, CeMAT RUSSIA will feature a Youth Day – for students, young professionals and companies. The main theme: how business, education and young talent can find a common language on the warehouse floor. Labour shortages and high turnover remain major industry challenges, while logistics errors cost billions.

General Partner

The exhibition's General Partner is COMITAS – a Russian full-cycle system integrator and equipment manufacturer with extensive practical experience in large-scale automation and robotics projects for warehouse and production facilities.

16th International exhibition of machinery, equipment, automation tools and robotics for warehouse and industrial logistics, CeMAT RUSSIA, 15–17 September 2026, Crocus Expo, Pavilion 1.

Exhibition Organizer: ООО «ОКТО» (OKTO LLC)
